INT. J. GEOGRAPHICAL INFORMATION SYSTEMS, 1991, VOL. 5, NO. 4, 493–494

Index of Authors

with the titles of papers

AL-ANKARY, K. M.: An incremental approach for establishing a geographical information system in a developing country: Saudi Arabia, 85

BACASTOW, T., *see* Peuquet, D. J.
BREGT, A. K., DENNEBOOM, J., GESINK, H. J., and VAN RANDEN, Y.: Determination of rasterizing error: a case study with the soil map of The Netherlands, 361

CALKINS, H. W., abd OBERMEYER, N. J.: Taxonomy for surveying the use and value of geographical information, 341
CARVER, S. J.: Integrating multi-criteria evaluation with geographical information systems, 321
CHEN XIAOGANG, *see* Liu Yue
CLARK, D. M., *see* Hasting, D. A.
COULSON, M. R. C.: Tactile-map output from geographical information systems: the challenge and its importance, 353

DAWES, W., *see* Skidmore, A. K.
DEMERS, M. N., and FISHER, P. F.: Comparative evolution of statewide geographic information systems in Ohio, 465
DENNEBOOM, J., *see* Bregt, A. K.

EDRALIN, J. S.: International conference on Geographic Information Systems Applications for Urban and Regional Planning, 147
EGENHOFER, M. J., and FRANZOSA, R. D.: Point-set topological spatial relations, 161

FALCIDIENO, B., and SPAGNUOLO, M.: A new method for the characterization of topographic surfaces, 339
FISHER, P. F., *see* Demers, M. N.
FISHER, P. F.: Modelling soil map-unit inclusions by Monte Carlo simulation, 193
FOX, J. M.: Spatial information for resource management in Asia: a review of institutional issues, 59
FRANZOSA, R. D., *see* Egenhofer, M. J.

GESINK, H. J., *see* Bregt, A. K.
GILLIES, C. F., *see* Lai, P.
GOLLEDGE, R. G., LOOMIS, J. M., KLATZKY, R. L., and YANG, I. L.: Designing a personal guidance system to aid navigation without sight: progress on the GIS component, 375

HASTINGS, D. A., and CLARK, D. M.: GIS in Africa: problems, challenges and opportunities for co-operation, 29
HASTINGS, D. A., KINEMAN, J. J., and CLARK, D. M.: Development and application of global databases: considerable progress, but more collaboration needed, 137
HYDE, R. F.: The feasibility of a land information system for Belize, Central America, 99

KINEMAN, J. J., *see* Hastings, D. A.
KLATZKY, R. L., *see* Golledge, R. G.
KNAUSENBERGER, W. I., *see* Tappan, G. G.
KOLLIAS, V. J., and VOLIOTIS, A.: Fuzzy reasoning in the development of geographical information systems. FRSIS: a prototype soil information system with fuzzy retrieval capabilities, 209

LAI, P., and GILLIES, C. F.: The impact of geographical information systems on the role of spatial data libraries, 241

LEE, J.: Analysis of visibility sites on topographic surface, 415
LEE, J.: Comparison of existing methods for building triangular irregular network models of terrain from grid digital elevation models, 267
LIANG ZHANG, *see* Liu Yue
LIU YUE, LIANG ZHANG, CHEN XIAOGANG and ZHOU YINGMING: The establishment and application of the geographic mapping database by city/county unit in China, 73
LOOMIS, J. M.: *see* Golledge, R. G.
LOWELL, K.: Utilizing discriminant function analysis with a geographical information system to model ecological succession spatially, 175

MILLER, H. J.: Modelling accessiblity using space-time prism concepts within geographical information systems, 287
MOORE, D. G., *see* Tappan, G. G.

NKAMBWE, M.: Resource utilization and regional planning information systems (RURPIS) in Botswana, 111

O'LOUGHLIN, E., *see* Skidmore, A.K.
OBERMEYER, N. J., *see* Calking, H. W.
ONSRUD, H. J., and PINTO, J. K.: Diffusion of geographic information innovations, 449

PEUQUET, D. J., and BACASTOW, T.: Organizational issues in the development of geographical information systems: a case study of U.S. Army topographic information automation, 303
PINTO, J. K., *see* Onsrud, H. J.

RYAN, P. J., *see* Skidmore, A. K.

SHORT, D., *see* Skidmore, A. K.
SKIDMORE, A. K., RYAN, P. J., DAWES, W., SHORT, D., and O'LOUGHLIN, E.: Mapping forest soils from a GIS using an expert system, 433
SPAGNUOLO, M., *see* Falcidieno, B.

TAPPAN, G. G., MOORE, D. G., and KNAUSENBERGER, W. I.: Monitoring grasshopper and locust habitats in Sahelian Africa using GIS and remote sensing technology, 123
TAYLOR, D. R. F.: GIS in developing nations, 3
TROTTER, C. M.: Remotely-sensed data as an information source for geographical information systems in natural resource management: a review, 225

VAN RANDEN, Y., *see* Bregt, A. K.
VOLIOTIS, A., *see* Kollias, V. J.

YANG, I. L., *see* Golledge, R. G.
YAPA, L. S.: Is GIS appropriate technology?, 41
YEH, A. G.-O.: The development and applications of geographic information systems for urban and regional planning in the developing countries, 5
